Numeracy			<b>Covered in main Activity</b>		
Skills and concepts	<b>Games and worksheets that enhance the Spatial Concepts and Relationships are on hand daily. For example, games such as connect 4 may encourage children to consider the concept of rules, practice following rules and reason about moral problems, detect patterns, plan ahead, predict the outcome of alternative moves and learn from experience.</b>				
Imaginative/ Construction play	<b>Areas for imaginative and construction are always provided for Children to engage in imaginative and creative play by themselves or with others. Arts and crafts, and construction/building play are ways for children to express their creativity, encourages focus and concentration. Constructive play develops imagination, problem-solving skills, fine motor skills, and self-esteem.</b>
